Medical exemptions

A child shall not be required to have any specific immunization(s), which are medically contraindicated. A written statement submitted to NJYS from a physician licensed to practice medicine or osteopathy or an advanced practice nurse (certified registered nurse practitioner or clinical nurse specialist) in any jurisdiction of the United States indicating that an immunization is medically contraindicated for a specific period of time, and the reason(s) for the medical contraindication, based upon valid medical reasons as enumerated by the Advisory Committee on Immunization Practices (ACIP) of the United States Public Health Service or the American Academy of Pediatrics (AAP) guidelines, will exempt a pupil from the specific immunization requirement for the stated period of time.

Religious exemptions

A child shall be exempted from mandatory immunization if the parent or guardian objects thereto in a written statement submitted to the school, preschool, or child care center, signed by the parent or guardian, explaining how the administration of immunizing agents conflicts with the pupil's exercise of bona fide religious tenets or practices.

Note

If your child participated in a NJYS Camp during summer 2008, you do not need to re-submit Immunization Records.
